

Dom-Pressure reducing regulator 2" internal thread

up to 110bar inlet pressure
Item number: HZI/D2110-2"

Description:

single-level Dom-pressure reducing regulator with pre-pressure equalization

Technical data:

- cleaned free of oil and grease
- diaphragm and cone seat out from EPDM
- cone seat diameter: 26mm
- Max. input pressure: 110bar
- Ports: G 2" internal thread
- pressure gauge connections: NPT 1/4"
- Dom connection: NPT 1/4"
- Weight: approx. 27,2 kg
- Flow: max. 320 m³/h
